zadanie 4

This year I was planing on going to the mountains, do a little bit of hiking see beautiful views take some nice pictures and relax after the hard year after that I wanted to go to work and earn some money. Unfortunately due to corona virus epidemic it is going to be a lot harder. For example there aren't as many train connections as before the outbreak started, and of course companies are not as

willing to hire new personnel. But I am not discouraged, for the time being I am isolating and hoping to not observe any symptoms myself.
